

Dear Potential Member:

**The Illinois Association of County Engineers (IACE) invites you to become an associate member.**

IACE is the statewide association representing county engineers and county highway departments in Illinois. Our members represent all 102 Illinois counties, from Chicago to Cairo, from the Mississippi River to the Indiana border. Associate membership is open to individuals, firms, or corporations having an interest in the county transportation system and the office of the County Engineer. We are expanding our associate member program, and we'd like you to become an IACE member in 2011.

Associate membership will provide significant benefits to your business. Associate members receive a **current roster of all IACE members**. In turn, associate members are listed in the annual IACE directory, providing our members with valuable information about companies that want to work with Illinois county highway departments. Associate members are also **invited to participate in two IACE annual meetings**, which include valuable opportunities to showcase their business to county engineers.

Additional benefits include receiving the IACE Newsletter, information on the IACE legislative platform, and access to a variety of conferences and seminars that may be of interest to your company.

Please consider the advantages of becoming an associate member of IACE. To join, simply complete the attached membership application and mail it with your check for \$250 to:

Illinois Association of County Engineers  
712 South Second St.  
Springfield, Illinois 62704

I look forward to working with you in 2011!

Sincerely,  
Carl Schoedel, P.E.  
President, Illinois Association of County Engineers  
Kane County Engineer
